

How Censorship in China Allows Government Criticism but Silences Collective Expression¹

Gary King, Jennifer Pan, Molly Roberts

Institute for Quantitative Social Science
Harvard University

(talk at University of California, Berkeley, 12/3/2012)

¹Forthcoming, *American Political Science Review*

Chinese Censorship

Chinese Censorship

- The largest selective suppression of human expression in history

Chinese Censorship

- The largest selective suppression of human expression in history
- Press freedom: 187th of 197 countries, but by far the largest effort

Chinese Censorship

- The largest selective suppression of human expression in history
- Press freedom: 187th of 197 countries, but by far the largest effort
- Content filtering: Removing individual posts **by hand**

Chinese Censorship

- The largest selective suppression of human expression in history
- Press freedom: 187th of 197 countries, but by far the largest effort
- Content filtering: Removing individual posts **by hand**
- Estimated workforce involved:

Chinese Censorship

- The largest selective suppression of human expression in history
- Press freedom: 187th of 197 countries, but by far the largest effort
- Content filtering: Removing individual posts **by hand**
- Estimated workforce involved:
 - Total government censors: $\approx 200,000$

Chinese Censorship

- The largest selective suppression of human expression in history
- Press freedom: 187th of 197 countries, but by far the largest effort
- Content filtering: Removing individual posts **by hand**
- Estimated workforce involved:
 - Total government censors: $\approx 200,000$
 - Internal censors at individual sites like Sina.com: **up to $\approx 1,000$**

- (Other examples: Iran, Saudia Arabia, Syria, Vietnam, etc.)

Our Main Point

Our Main Point

- **Prevailing Wisdom**: the goal of censorship: to stop government criticism

Our Main Point

- **Prevailing Wisdom**: the goal of censorship: to stop government criticism
- **A BBC Reporter** thought he found a contradiction in Chinese Premier Wen Jiabao's farewell speech:

Our Main Point

- **Prevailing Wisdom**: the goal of censorship: to stop government criticism
- **A BBC Reporter** thought he found a contradiction in Chinese Premier Wen Jiabao's farewell speech:

"[Premier Wen] claimed that China's leaders welcomed criticism expressed on the internet. It is 'natural for that to happen', he said.

And yet he presides over a government that routinely censors the internet — and has imprisoned many who have given voice to their criticism."

Our Main Point

 - (≈ 3 SDs greater than baseline volume)
- We monitored 85 topic areas (Jan–July 2011)
- Found 87 volume bursts in total
- Identified real world events associated with each burst

The Goals of Chinese Censorship

The Goals of Chinese Censorship

Theories. The Purpose of Censorship is to:

- 1 Stop criticism of the state

The Goals of Chinese Censorship

Theories. The Purpose of Censorship is to:

- 1 Stop criticism of the state
- 2 Stop collective action

The Goals of Chinese Censorship

Theories. The Purpose of Censorship is to:

- 1 Stop criticism of the state
- 2 Stop collective action

Either or both could be right or wrong.

The Goals of Chinese Censorship

Theories. The Purpose of Censorship is to:

- 1 ~~Stop criticism of the state~~ *Wrong*
- 2 Stop collective action

Either or both could be right or wrong.

The Goals of Chinese Censorship

Theories. The Purpose of Censorship is to:

- 1 Stop criticism of the state *Wrong*
- 2 Stop collective action *Right*

Either or both could be right or wrong.

Our Central Hypothesis: The Rules Censors Follow

Our Central Hypothesis: The Rules Censors Follow

- 1 Monitor many broad topic areas

Our Central Hypothesis: The Rules Censors Follow

- 1 Monitor many broad topic areas
- 2 Detect volume bursts; identify associated real world events

Our Central Hypothesis: The Rules Censors Follow

- 1 Monitor many broad topic areas
- 2 Detect volume bursts; identify associated real world events
- 3 Select events that could (or did) generate collective action

Our Central Hypothesis: The Rules Censors Follow

- 1 Monitor many broad topic areas
- 2 Detect volume bursts; identify associated real world events
- 3 Select events that could (or did) generate collective action
- 4 Censor all posts within bursts associated with these events

Our Central Hypothesis: The Rules Censors Follow

- 1 Monitor many broad topic areas
- 2 Detect volume bursts; identify associated real world events
- 3 Select events that could (or did) generate collective action
- 4 Censor all posts within bursts associated with these events
- 5 Judge individual posts for association with events, not for the posts' collective action potential (or for criticism of the state)

Our Central Hypothesis: The Rules Censors Follow

- 1 Monitor many broad topic areas
- 2 Detect volume bursts; identify associated real world events
- 3 Select events that could (or did) generate collective action
- 4 Censor all posts within bursts associated with these events
- 5 Judge individual posts for association with events, not for the posts' collective action potential (or for criticism of the state)

⇒ The government censors all posts (regardless of how critical or supportive of the state) in volume bursts associated with events with collective action potential

- 1 Post volume

Our Evidence

3 increasingly specific tests based on

- 1 Post volume
- 2 Nature of the event generating each volume burst

Our Evidence

3 increasingly specific tests based on

- 1 Post volume
- 2 Nature of the event generating each volume burst
- 3 Content of the posts

Test 1: Post Volume

Test 1: Post Volume

- Begin with our 87 volume bursts in 85 topics areas

Test 1: Post Volume

- Begin with our 87 volume bursts in 85 topics areas
- For each burst, calculate change in % censorship inside to outside each volume burst within topic areas – censorship magnitude

Test 1: Post Volume

- Begin with our 87 volume bursts in 85 topics areas
- For each burst, calculate change in % censorship inside to outside each volume burst within topic areas – censorship magnitude
- If goal of censorship is to stop collective action, we expect:

Test 1: Post Volume

- Begin with our 87 volume bursts in 85 topics areas
 - For each burst, calculate change in % censorship inside to outside each volume burst within topic areas – censorship magnitude
 - If goal of censorship is to stop collective action, we expect:
- 1 On average, % censored should increase during volume bursts

Test 1: Post Volume

- Begin with our **87 volume bursts** in 85 topics areas
- For each burst, calculate change in % censorship inside to outside each volume burst within topic areas – **censorship magnitude**
- If goal of censorship is to stop collective action, **we expect:**

- 1 On average, % censored should increase during volume bursts
- 2 Some bursts (associated with politically relevant events) should have much higher censorship

Test 1: Post Volume

- Begin with our **87 volume bursts** in 85 topics areas
- For each burst, calculate change in % censorship inside to outside each volume burst within topic areas – **censorship magnitude**
- If goal of censorship is to stop collective action, **we expect:**

- 1 On average, % censored should increase during volume bursts
- 2 Some bursts (associated with politically relevant events) should have much higher censorship

Test 2: Nature of Event Generating Increases in Volume

Test 3: Content of Posts

We adapted “ReadMe” (Hopkins-King) methodology to the content of censored posts in Chinese

Test 3: Content of Posts

We adapted “ReadMe” (Hopkins-King) methodology to the content of censored posts in Chinese

- Standardize encoding of Chinese text

Test 3: Content of Posts

We adapted “ReadMe” (Hopkins-King) methodology to the content of censored posts in Chinese

- Standardize encoding of Chinese text
- Eliminate punctuation and stop words

Test 3: Content of Posts

We adapted “ReadMe” (Hopkins-King) methodology to the content of censored posts in Chinese

- Standardize encoding of Chinese text
- Eliminate punctuation and stop words
- Experiment with segmenting characters into words

Test 3: Content of Posts

We adapted “ReadMe” (Hopkins-King) methodology to the content of censored posts in Chinese

- Standardize encoding of Chinese text
- Eliminate punctuation and stop words
- Experiment with segmenting characters into words
- Calculate the quantity of interest (% censored by category)

Test 3: Content of Posts

We adapted “ReadMe” (Hopkins-King) methodology to the content of censored posts in Chinese

- Standardize encoding of Chinese text
- Eliminate punctuation and stop words
- Experiment with segmenting characters into words
- Calculate the quantity of interest (% censored by category)
 - Code a validation set

Test 3: Content of Posts

We adapted “ReadMe” (Hopkins-King) methodology to the content of censored posts in Chinese

- Standardize encoding of Chinese text
- Eliminate punctuation and stop words
- Experiment with segmenting characters into words
- Calculate the quantity of interest (% censored by category)
 - Code a validation set
 - ReadMe estimates: % of posts in each category

Test 3: Content of Posts

We adapted “ReadMe” (Hopkins-King) methodology to the content of censored posts in Chinese

- Standardize encoding of Chinese text
- Eliminate punctuation and stop words
- Experiment with segmenting characters into words
- Calculate the quantity of interest (% censored by category)
 - Code a validation set
 - ReadMe estimates: % of posts in each category
 - Quantity of interest: % of posts censored in a category

Test 3: Content of Posts

We adapted “ReadMe” (Hopkins-King) methodology to the content of censored posts in Chinese

- Standardize encoding of Chinese text
- Eliminate punctuation and stop words
- Experiment with segmenting characters into words
- Calculate the quantity of interest (% censored by category)
 - Code a validation set
 - ReadMe estimates: % of posts in each category
 - Quantity of interest: % of posts censored in a category

$$P(\text{Censored} | \text{Category}) = \frac{P(\text{Category} | \text{Censored})P(\text{Censored})}{P(\text{Category})}$$

Predictions from Two Theories of Censorship

Predictions of State Criticism Theory

		Collective Action	
		yes	no
State Critique	yes		
	no	Free	Free

Test 3: Content of Censored and Uncensored Posts

Predictions from Two Theories of Censorship

Predictions of Collective Action Theory

		Collective Action	
		yes	no
State Critique	yes		Free
	no		Free

With Collective Action, Posts that Support *or* Criticize the State are Censored

With Collective Action, Posts that Support or Criticize the State are Censored

Without Collective Action, Posts that Support *or* Oppose the State are NOT Censored

Without Collective Action, Posts that Support *or* Oppose the State are NOT Censored

		Collective Action	
		yes	no
State Critique	yes	CENSORED	Free
	no	CENSORED	Free

Uncensored Posts (w/o Collective Action Potential) Critical of the State

Uncensored Posts (w/o Collective Action Potential) Critical of the State

		Collective Action	
		yes	no
State Critique	yes		Free
	no		Free

Uncensored Posts (w/o Collective Action Potential) Critical of the State

This is a city government [Yulin City, Shaanxi] that treats life with contempt, this is government officials run amuck, a city government without justice, a city government that delights in that which is vulgar, a place where officials all have mistresses, a city government that is shameless with greed, a government that trades dignity for power, a government without humanity, a government that has no limits on immorality, a government that goes back on its word, a government that treats kindness with ingratitude, a government that cares nothing for posterity. . .

这是一个漠视生命的市政府[陕西省榆林市]、一个官员横行的市政府、一个没有公正的市政府，一个低级趣味的市政府，一个包二奶的市政府，一个为钱不要脸的市政府，一个为个权不要人格的市政府，一个没有血性的市政府，一个没有道德低线的市政府，一个出尔反尔的市政府，一个忘恩负义的市政府，一个不要子孙后代的市政府，一个什么怪事都出的市政府，一个什么的市政府，只要你想到的就有…

Censored Post (with Collective Action Potential) Supporting the State

Censored Post (with Collective Action Potential) Supporting the State

		Collective Action	
		yes	no
State Critique	yes		Free
	no		Free

Censored Post (with Collective Action Potential)

Supporting the State

The bombing led not only to the tragedy of his death but the death of many government workers. Even if we can verify what Qian Mingqi said on Weibo that the building demolition caused a great deal of personal damage, we should still condemn his extreme act of retribution.... The government has continually put forth measures and laws to protect the interests of citizens in building demolition. And the media has called attention to the plight of those experiencing housing demolition. The rate at which compensation for housing demolition has increased exceeds inflation. In many places, this compensation can change the fate of an entire family.

爆炸案造成他本人和多名政府工作人员死伤的悲剧，即使钱明奇在微博里所称拆迁造成的个人损失是属实的，我们也应谴责他的极端报复行为.... 政府在连续出台保护被拆迁者利益的政策法规，媒体也在为公平对待被拆迁者大声疾呼，各地拆迁补偿款的上升速度，大多高于商品房售价上升的速度，在不少地方，补偿款已经足以改变一个家庭的命运。
